

TOP 10 REASONS TO CHOOSE DUNN-EDWARDS

1 PROVEN QUALITY

Our chemists conduct extensive testing to make sure our paint offers superior performance compared to competitors. Every product is developed, formulated, perfected, and have meaningful differences that make them better for your specific needs.

2

PERFECT COLOR

With over 2,000 hand-selected wall and trim colors, 8oz Perfect Palette® Samplers, precision color-matching, and professional color consultations, you're sure to find the perfect hue.

LOVED BY PAINTING PROS

We're dedicated to providing professionals with the highest quality paints, supplies, and service. Maybe that's why so many have used our products almost exclusively for decades. These long-standing relationships with trusted, licensed painting pros means that we're better positioned to help you find the right contractors for your properties too.

3

4 GREENER BY DESIGN®

All Dunn-Edwards paint products are green because they are formulated for maximum eco-efficiency. That means each product is made using the least amount of energy and material resources needed to meet performance requirements, while avoiding the use of potentially harmful ingredients. We were one of the first, and still are one of the few companies to voluntarily remove Ethylene Glycol (EG), a hazardous air pollutant, from our water-based paints. At Dunn-Edwards, we take great care to protect our customers while conserving the Earth's resources.

5 EXPERT ADVICE FOR EVERY JOB

Our Professional Color Advisors, store associates, and expert tinters provide world-class, concierge-level service for every painting project that you have. Need help selecting the right paint or color? Have an unusual paint problem? Ask us. We're always ready to help.

6

YOU'RE FAMILY

We were founded as a family business in 1925, and family is at the core of our operating philosophy today. Your happiness is our bottom line and we'll do what it takes to help you get every job done right.

We're also proud of the fact that all of our Dunn-Edwards brand paints are made in our manufacturing facility in Phoenix, AZ.

7

BETTER FROM THE INSIDE OUT

Our resin suppliers tell us that our raw material specs are the most demanding in the industry, and we'll never stop demanding the best—with superior pigments, industry-leading filtration, and state-of-the-art manufacturing processes to ensure a superior can of paint every time.

8

NOT JUST PAINT

Dunn-Edwards sells supplies and equipment from the most trusted manufacturers. You can rest assured that every item in our store performs to the highest standards under the toughest conditions.

WEATHER ANY WEATHER

Initially developed for some of the harshest climates in the American Southwest, Dunn-Edwards paints stand up to challenging environments.

10

HERE FOR THE LONG HAUL

After almost a century in the business, we've earned our reputation for quality, innovation, and service, and we're just getting started. Superior products. Knowledgeable people. Dependable service. Proven performance. That's why professionals choose Dunn-Edwards. That's why you should, too.
